

Minutes of Monthly Meeting Kinsella Municipal District

Minutes of meeting held at Kinsella at 10 a.m. on Tuesday, September 14. Full Council present.

Cr. Zelinski that minutes of previous meeting be passed as read. C.U.
Cr. Lison that Cr. Bowden be Deputy Reeve for the ensuing 6 months.—C.U.

Receipts and expenditures for the month of August being presented to the meeting, Cr. Zelinski that they be passed. C.U.

Cr. Bowden that no person shall be granted relief until such person has appeared in person before the Council and has signed all the necessary documents in connection therewith, and that no such relief be given until application be approved by the Department. C.U.

Mr. Nease, president of the W. L. Kinsella, spoke re the building of a community hall at Kinsella. Cr. Lison moved that the Council do not feel justified in making the necessary expenditure in building a community hall. C.U.

Cr. Bowden that the following adjustments be made in connection with sales made by the Municipality of certain lands, it being reasoned that at the time of making these sales conditions were considerably better than they are now, the said adjustments being made to enable the purchasers to carry on with the contract: Mr. J. Stinson that upon the payment of \$125.00 cash that title to N.W. 4-46-11 W. 4th be given to Mr. Stinson, interest at the rate of 8% to commence at 14.9.1937.

Mr. Gustafson that when he puts taxes in shape the title to N.W. 24-46-10 W. 4th be given to him.

Mr. I. Hoglund that upon the payment of \$125.00 and the taxes up to him in shape the title to N.E. 32-45-11 W. 4th be given to him, interest as above.

Mr. I. Johanson upon the payment of \$175.00 cash, title to S.W. 2-46-11 be given to him, interest as above.

Mrs. A. J. McGregor that upon the taxes being put in shape that title to S.W. 6-46-10-4th be given to her.

Cr. Overbo that the application for relief for W. A. Belton be approved at the rate of \$7.50 per month.

The Adjutant of the Salvation Army spoke re annual grant. Cr. Bowden that matter be tabled. C.U.

Cr. Overbo that all seed grain accounts must be repaid to the District on or before October 12, 1937. C.U.

The following correspondence was read and tabled for the attention of the secretary: Weed inspector's report, re leasing of lands by Mr. A. Pyke, Mrs. R. Johnson re relief, re seed grain collections, re Bert Bingham letter from his brother, C. G. Purvis re accounts of Viking hospital, University hospital re Mrs. Edna Scott, Edmonton General hospital re accounts, N. A. Land reg. District re ownership of certain lands.

Cr. Overbo that the following accounts be passed for payment:
T. Candy, Weeds G. \$ 17.30
Road Drugging 1 16.00
Road Drugging 2 21.45
Seizures, S. Garin G 121.80
Postmaster, postages G 25.00
Relief re B. Bingham G 6.70
E. J. Kelly, re Belton G 5.00
re Millar G 5.00
E. Floden, re Holcroft G 4.00
C.U.

Cr. Lison that meeting adjourn till 10 a.m. Tuesday, Oct. 12.
B. H. GREEN, Sec'y-Treas.

Jarrow Jottings

Mr. and Mrs. Barton with their little daughter Pat have returned, after spending the summer in Vancouver.

Mr. M. Wilkinson and family have moved from the post office and have rented the house formerly owned by Mr. O. R. Marby.

Mr. W. A. Belton had the misfortune of being poisoned in his thumb. He was confined to the hospital in Jarrow for several days. It is feared that he will lose his thumb.

It is very unfortunate that such a thing has to happen during the busy season when Mr. Belton is in need of his daily work to prepare for himself and family for the coming winter.

Miss Veda Marby after visiting her sister Mrs. Ward Matthews returned this week to her home in Melville, Sask.

It will be a loss to our town and vicinity to have the Red & White store closed. We need two stores, even in Jarrow, for competition is the life of trade.

Mr. E. J. Kelly has decided to close his business in Jarrow and open a store in the vicinity of Edmonton.

Mr. Kelly is selling much of his goods at cost. His reduction will continue until Nov. 1.

Mr. Fred Pendle, our station agent, is spending his two weeks' vacation in the city of Vancouver. He and his mother left on the Rier Sunday morning. Mrs. Fred Pendle with her little girl is with her parents in Munson.

Mrs. Arthur Routledge lately arrived home after spending some time at the University hospital in Edmonton. We are very sorry to learn that Mrs. Routledge is in very poor health.

The moving from Jarrow and community continues. Mr. R. O. Moore and family are leaving the farm next month for their new home in B. C. Mr. Moore must be classified among the first of our citizens. For years he has been a member of our school board. He has been always active in church work and at all times willing to assist in every good cause. Mrs. Moore also has followed the

ALBERT DISTRICT NEWS

Mrs. Griffiths entertained at a lawn party and miscellaneous shower in compliment to Mrs. Hardy, the former Miss Daisy Herrick, last Friday. Mrs. Hardy received many attractive and useful presents for which she charmingly thanked the donors. Owing to the busy season, many local ladies could not attend, but those present included Mrs. Currie Sr., Mrs. R. A. Larson and granddaughter Clara, Mrs. Ellwood, Mrs. Hay, Mrs. J. Currie, Mrs. Herrick and daughter Margaret, Mrs. Ramsay Jr., Mrs. Clelland, Mrs. V. Larson, Mrs. A. Stuart, Mrs. Fleming Jr., Mrs. Mathison, Mrs. R. Johnson, Mrs. L. Currie and son Keith, Mrs. Rohrer and daughter Dickie, Mrs. H. Johnston, Mrs. W. Colbourne, Mrs. G. Currie and Wilma Currie.

We regret to hear that Mrs. Pils, former Albert resident, now living at the coast, is confined to the hospital with flu.

G. W. Hardy is sporting a new de luxe Ford V8.

Mr. Lukens Sr. reported the loss of a load of wheat from a granary on his home farm, which is a sad reminder that the season for thieving is again open.

good example of her husband. She is a teacher in our Sunday school and an active member in the Ladies' Aid.

It is a great loss to our community to lose such a valuable family. But what is our loss is the gain of others.

We wish the Moore family the best success in their new home. If later they wish to return they will be welcomed back.

The wheat crop in our community is far from being the best. The crop averages from two to ten bushels per acre. However the oats are fine, so there will be plenty of good feed for stock and for which we have reason to be thankful.

Mrs. Colbourne, of Prince George, has been visiting her sister, Mrs. Ed. Peet.

M. D. of Buffalo Coulee Council Meeting

September 11, 1937.—Council meeting was held in Saltax school with Mrs. Hetherington, Phaeasy, Ramsay, Hills, Dew and Currey present, and the Reeve in the chair.

Minutes of August 14 were read and adopted.

Hospital notices for the month were read.

Monthly statement for August was signed by the Reeve after being read.

Further correspondence read re Mrs. Ambler and Mrs. McDowell's Allowances. No action taken.

Mr. Jno. Kane was present and asked renewal of proposal for assisted transportation to Scotland. Cr. Hills carried that the Reeve and Deputy Reeve be a committee to investigate the circumstances of Mr. Kane and also to interview A. P. Rustad re taxes and Seed Grain, Sherman Prospector re doctor guarantee, Hugh McAttee re taxes and Arthur Emmott re taxes.

Circular letters re relief were read. Letters from The Department and Mrs. Nichyporuk re Mother's Allowance were read. Secretary to report that Mrs. Nichyporuk is still overpaid.

Committee report was presented by the Reeve when Cr. Hills carried that report be accepted and expenses paid. The sec'y read his reply to J. W. G. Morrison re impoundment of Ray Nicholson's horse which was considered satisfactory.

Correspondence with the D.M.A. re Mun. Doctor bylaws was read when it was decided to proceed to submit bylaws 11 and 12 to a vote of the electors in Div. 1 and 6, excluding the portion of said divisions included in the Wainwright hosp. dist., on October 1 next.

Neil Stewart, Bailiff, was present and reported re seizures and collections, and after consideration and discussion he was further instructed in cases where the Bailiff's undertaking had not been signed and to make further seizures in certain cases. Chris. Hansen was present and asked that his seizure be reduced as he was unable to pay it as it stood. Chris. Hills carried that half the amount be accepted and seizure released. Cr. Hills carried that amount of current taxes and 20% of arrears be accepted and seizure released in the case of Chas. Matters. Cr. Dew carried that

W.M.S. RALLY AT VIKING

The regular meeting of the W.M.S. was held on Wednesday last at the home of Mrs. Martin Enger. With the record attendance of 18 members and friends.

The topic of study was Temperance and some very interesting points were discussed. The meeting was brought to a close with a few most enlightening remarks from Mr. Longmire.

On Friday afternoon a car load of ladies from the Irma W.M.S. drove to Viking to attend the fall Rally, and a most instructive and encouraging time was spent with members and friends from the auxiliaries of Wainwright, Toftod, Holden, Ryley and Jarrow.

The Viking ladies in their usual grand style served the guests a delightful banquet at the close. Our only regret being the fact that our meeting fell on the day of the Viking school fair and we did not meet as many of the Viking ladies as we would have liked.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

KEEPING ONE'S FEET DRY

It is surprising how important to our well being are some of the apparently trivial details of our everyday life. For instance, consider the simple rule to keep one's feet dry. Few indeed are the simple health rules, the observance of which pays such high dividends.

In a climate like ours where rains come frequently and where soft snow and slush are encountered many times spring and fall it is not always easy to keep the feet dry. Rubbers and overshoes are a nuisance and it is very tempting to go out without

STEPS TAKEN TO UNSEAT PREMIER

Move to unseat Premier Aberhart from the legislature was launched Tuesday, under the terms of the Recall act passed by the legislature in 1936 during the first legislative session of Social Credit regime, when an application for a formal petition was filed at the legislative buildings with R. A. Anderson, clerk of the executive council and of the legislative assembly.

The application, accompanied by the required \$200 deposit, set in motion the machinery under which a petition prescribed by the legislature should be circulated throughout the Okotoks-High River constituency which the premier represents in the house.

If 66% per cent of the electors in that riding sign the petition under the rules laid down by the act, the premier would be declared by a judge of the Alberta supreme court to have been unseated.

The petition against the premier is the first to be launched in Alberta under the terms of the act, which was hailed by Social Credit members of the house at the time of its passage as a move to assure the will of the people of the province being respected.

Text of the statement accompanying the formal application for the recall of Premier Aberhart follows:

"The said member, Hon. William Aberhart, has failed to implement promises and representations made by him to the electors prior to his election. He has supported government policies and the enactments of statutes detrimental to the province and has lost the confidence of the electors of said electoral division."

them. Before one realizes it the feet get wet. It may be hours before a change is feasible and during that time the feet get chilled, the heat regulating mechanism of the body becomes deranged and before we know it another cold has developed. Few things seem to lower the resistance of the body to infection as quickly as wet feet.

Children particularly require careful watching. They will slip off to school without rubbers and mittens, they will tarry en route to test out each stretch of "rubbing" ice and go out of their way to trudge through a mud puddle; then they may have to sit until late afternoon without an opportunity for a change.

Absolute insistence upon warm, dry feet always pays. With rapidly growing boys and girls rubbers and overshoes quickly become outgrown, and it is cheaper to buy a new pair than to pay for the costs of an illness. Shoes should have thick soles in winter or in wet weather. Half-splicing when required is not a luxury; one cannot risk putting it off. In winter, sportswear and other boots should be kept waterproofed. Heavy wool socks and socks are to be recommended. When driving or motoring long distances in cold weather, the feet should be kept warm always.

One essential point to keep in mind is that most danger comes, not from getting the feet wet, but in letting them remain that way. There is very little danger if one can change at once into dry footwear. If the feet are chilled as well as wet, they should be rubbed until circulation has been restored and, if necessary, a warm footbath taken as well.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

KELLY STORE, JARROW, TO QUIT BUSINESS

The Red & White store at Jarrow, conducted by Mr. E. J. Kelly for the past four years, is closing out with a big sale that starts on Monday, Sept. 27th. Mr. Kelly is already giving bargains that are drawing customers to his place. Everything is to be sold to the bare walls. A full line of ladies' and gents' wear, hardware supplies, children's wear, etc., is being offered. Watch for posters out in a few days.

TO HOLD AUCTION SALE FEEDER CATTLE

Announcement is made by the Hon. Mr. J. G. Gardiner, Dominion Minister of Agriculture, that auction sales of feeder cattle from the drought emergency pastures in Manitoba are proposed to be held at Carberry, Man., Friday, September 24, October 1 and Saturday, October 9.

These cattle, purchased by the Dominion Government and shipped in to the emergency pastures from loading points in the dried-out areas in Saskatchewan, under existing relief policies, are available to Ontario farmers and other prospective buyers looking for suitable stock. The terms of Feeder Freight and Feeder Purchase Policies will apply on all carloads of cattle purchased at these sales, by purchasers resident in Manitoba and Eastern Canada, and all stock offered for auction will be sorted into carload lots according to weights, ages, qualities, and, in as far as possible, colors.

The offering includes steers, heifers and young cows. Many of the latter are suitable for breeding and dairy purposes. Females offered for sale by auction will be tuberculin and blood tested.

The auctions will be held under the supervision of Mr. O. Freer, in charge of the movement of drought cattle and their disposal.

Investment Dollars

The "Undistributed profits" tax of the Roosevelt administration in the United States has been assailed by thousands of independent oil jobbers as a measure to throttle and kill small business.

Without trying to see a devil behind every stump, there is occasion for some thought on the much talked-of question of profits, particularly profits of established business industries.

All businesses grow and should grow, out of profits. Most small business start on a shoe string and grow entirely out of profits. It is true that for the dollars invested in the first place most small businesses that get anywhere make what the reformers condemn as "inordinate" percentage of profits. But what of it?

No intelligent investor would even think of "investing" in a small business. So where is a small businessman going to get the capital that he needs in which to grow and improve, except out of his own profits? And if these profits are a normal "six percent" on the "investment," how is he ever going to get anywhere because of the small amount in dollars involved?—Cont.

Don'ts Prescribed to Guard Against Infantile Paralysis

Cleveland, Sept. 18th.—Parents should be calm, but on their guard, during the current outbreak of infantile paralysis, believes Dr. John A. Toomey, nationally-known authority on contagious diseases.

He advises parents and children: Do not drink any water about which there is any question.

Do not drink milk unless it is pasteurized and from a reliable source.

Do not eat unwashed fruit or vegetables.

Beware of unripe fruit, which is likely to cause an upset stomach.

Avoid crowds and do not go swimming.

"A physician should be consulted at first signs of headache, stomach pains, nausea, vomiting, or diarrhea," Dr. Toomey said. "Greatest damage is done because most cases come to the attention of a physician too late. Early diagnosis means early treatment and early treatment means prevention of paralysis."

Use of the so-called convalescent serum, a serum drawn from the blood of a patient who has recovered from the disease, is the chief method of treatment, he said.

Thos. G. Dark, eyesight specialist and licensed optometrist, will be at Irma Drug Store, Viking Drug Store and Bruce Store, on Friday, October 8th, for the practice of his profession. Dark's glasses will relieve eye strain, strengthen your sight and save your eyes. Special attention given to children's eyes.

If you have something valuable that you can't use and somebody else may want, an advertisement in this paper will sell it for you. Try it.

The World of Wheat

By H. G. L. Strange, Director,
Research Department, Searle
Grain Company, Limited

"The low wheat yields in the West of recent years have been caused almost as much by loss of fibre and depletion of soil fertility as by lack of rainfall."

This startling statement is widely believed, I find, by people in Eastern Canada. If it is true then the future for the West is bleak indeed.

But what do the actual records reveal?

The average longtime wheat yield per acre for the whole West is 16.4 bushels, but the four comparatively recent years, 1925 to 1928, averaged annually 20.1 bushels to the acre, a higher yield for any four years in the history of the West, excepting for one period from 1901 to 1904, when it was 21 bushels.

Fields and districts that have been cropped for 50 or 60 years—some in the drought area—are this year giving fine yields. On the other hand, in very early days, quite low yields were at times registered.

Records tell us further that, excepting in recent years, low yields always come with low rainfall, and high yields with good rainfall.

Rainfall then still governs the yield and soil fertility is of much less importance.

Give the Prairies again good rains, and the fields will again produce good crops.

Following factors have tended to raise price: Growing fears of war in the World; Rains lower quality of grain in northwest Europe; Rains threaten damage to crops in eastern Russia; harvesting progresses slowly; U. S. Department of Agriculture reduces corn, wheat, barley and flax estimates; increase in British malting barley requirements.

Following factors have tended to lower price: Danubian wheat quality good; Russia makes substantial wheat shipments of superior quality; Long milling and use of substitutes in Europe curtail imports; General rains benefit Indian native food crops and help spring seeding; Manchurian soy bean crop above last year; Large Mediterranean Basin olive oil production.

Hold Log Rolling Contests in Michigan

(From the Viking News)

Neil McEachern who spent his boyhood and early days in Michigan and has some knowledge of life in the woods and lumbering at its height in that State, handed us the following account of log-rolling contests that are still being held there. Knowing that there are quite a few old-time loggers and lumbermen from Ontario and eastern States residing in this part of the province, Neil thought that they might be interested in the following account taken from the Republican News, of St. Ignace, Michigan. It is significant to note that the winner this year was a university student from Minnesota. The account follows:

"Spinning and snubbing the pine logs with the surpassing skill and balance of born briers, Wilbur Marx of Eau Claire, Wis., and Joe Connors of Camp Mountain, Wis., fought their way up to the final match of the World's Championship Log Rolling Tournament and engaged in a thrilling duel for the title "King of the White Waters" before a tense, excited throng of three thousand log cutting fans at the Upper Peninsula state fair grounds here Sunday afternoon. Red-headed, grinning Joe Connors, 26 year old University of Minnesota student, who is temporarily employed by the United States forest service, was the victor in the final match, winning two out of three falls from Marx, who has been the acknowledged champion for the past ten years, ever since he won it as a 16-year-old boy at Washburn, Wis., in 1927.

Another world's championship log rolling tournament will be held in Escanaba in 1938, it has been decided already. This year, 22 men and four girl briers came from the states of Washington, Minnesota, Wisconsin and Michigan to compete. Next year rollers from New Brunswick, Quebec, Ontario, British Columbia, Maine, Idaho and other Pacific coast states will be entered.

TRAIN for DIESEL

Mechanically inclined men now being selected to train as Diesel Engineers. Modern trains, boats, buses, trucks, aeroplanes offer wonderful opportunity. Transportation paid. Write for free information as to possibilities in this new field.

Box 248, Calgary, Alberta.

• The toughest kind of going has met more than its match. Goodyear self-cleaning Lug Tires for trucks and buses roll steadily through mud and snow that's rim deep. They travel skiddy curves and greasy ruts with ease. On all "un-paved" routes they give the driver of truck, bus or tractor a new sense of driving security.

The marvellous traction-power of Goodyear Lug Tires makes them indispensable to any driver who leaves the smooth, paved highway.

ALBERTA POOL ELEVATORS

The Facts About Banking in Canada

Reproduced from the Third Broadcast in a Series by Vernon Knowles for the Chartered Banks of Canada and Delivered Over a Province-Wide Network of Alberta Stations on Tuesday Evening, September 21st, from 8:30 to 8:45, and Wednesday, September 22nd, from 12:00 noon to 12:15.

Millions Paid in Taxes to the Dominion Government... More Millions to the Provinces and to the Municipalities... Alberta's Revenue From the Banks Boosted... Most Branches Operate at Loss... Banks Have Faith in Alberta.

CANADA'S Chartered Banks have paid in taxes, in Canada, during the last ten years \$74,301,000.

We promised last week that we would tell you about the load of taxation we carry. Before we get along very far to-night we shall give you a very plain, short list of figures. I would like you to get a pencil and paper to take down these figures when I reveal them to you.

We shall tell you also about our earnings, our profits and dividends. Our critics have been talking a great deal about the fabulous profits we are said to make; that criticism is unfounded. Let me repeat, as I said in our first broadcast, that we believe that many critics of the banks are sincere. We, too, are sincere.

You are often told that the banks should be taxed but we tell you that the banks are taxed, and we want to tell you some things that will interest you about the taxes we pay.

Now are you ready with that pencil and paper? We will pause for a few seconds so that you may get ready—We are not going to ask you to take down a long list but just a few plain figures—

Well now, are you ready? Here's the story: During the last ten years the banks have paid:

In taxes to—
The Dominion — \$22,771,000
The Provinces — 13,268,000
Municipalities — 38,262,000

This makes the sum I gave you in starting this broadcast — a total of \$74,301,000, which we have paid in taxes in ten years. The banks do not complain of fair taxation; they expect to bear their due proportion of the expense of running a Municipality, a Province or the Dominion but, because so many people have been led to believe that the banks are not taxed at all, we are telling you of the taxes that we do pay.

Take the case of Alberta alone. This year the Province imposed upon us a new and additional tax of one-tenth of one per cent of our paid-up capital. It amounts to \$141,000 this year. Last year we paid to the Alberta Government total taxes of \$81,150. This averaged out at \$390 per branch. From paying \$81,150, in 1936, our Alberta tax in 1937 has been boosted to a grand total of about \$222,000, or nearly three times what it was before.

We have told you the story of Provincial taxes. Now we turn for a moment to Municipal taxes. In 1936 the total of taxes we paid to Alberta Municipalities amounted to \$253,600. Our total of Municipal taxes in Alberta averaged out at \$1,219 per branch.

Let me repeat — the taxes paid by the banks in 1936 to the Province of Alberta alone averaged out at \$390 per branch. In 1937 they had risen to an average of \$1,115 per branch. And let me further repeat that the Alberta municipal taxes paid by the banks last year amounted to \$1,219 per branch. At this rate we are now paying a total of \$2,334 per branch in Provincial and Municipal taxes combined, quite regardless of the heavy Dominion taxes we bear. The Provincial and Municipal taxes combined, which are paid by the banks in Alberta, now reach the grand total of \$475,500 per year.

And yet, to hear some folks speak, you'd never know that the banks are taxed at all!

Do you know that very few of the bank branches in Alberta are making any profit? We are now going to tell you something that has never been revealed to the public before — we are letting you in on a secret.

Now if you are ready again with your pencil and paper we will give you the actual figures for 1935, the most recent year for which complete figures are available. There were then 221 branch banks in Alberta:

Only 41 of them made any profit. Seven of the 41 made not more than \$300 in that year.

And 180 were operated at a loss. You can figure out for yourselves what effect \$141,000 in new and added taxes has had on that picture.

With all this newly-revealed information I have given you the picture is still incomplete, for you all know that a business such as ours cannot be carried on without some losses. Indeed the net result in Alberta for the ten years 1925 to 1935, is that after providing operating expenses and taking care of bad and doubtful debts, the banks have incurred a very substantial loss.

The money thus lost, I assure you, did not drip from the end of a fountain pen.

You may ask — "Then why do the banks continue to operate in Alberta?" We answer: "Canada's Chartered Banks have faith in Alberta's future and in the people of this Province." We feel sure that the period of hardship and drought will pass.

The West has had a terrible struggle during the last seven or eight years. I remember the time, and many listeners must remember it too, when this Western country produced an export wheat crop of three to five hundred million bushels a year, when prices were high and marketing conditions were good. For years the West had, roughly speaking, from Three to Five Hundred Million Dollars in new money coming back into this country from the marketing of this newly produced wealth. Then, through fear of war and other conditions, the countries in Europe started restricting their wheat imports and growing their own.

World markets collapsed. Canada's banks did not do it; fear in Europe had much to do with it. And after that came the succession of heart-breaking dry seasons that our farmers have endured. You and I know what that has meant to Alberta. It has meant that for about seven years in the Great Central Plain of this Province and for almost ten years in the South, farmers have had either no crops or poor markets, in which in any case result in the same thing — little or no money.

Canada's Chartered Banks had no more to do with the collapse of the markets in Europe than they had with bringing on the drought. The real basis of hardship in this Province, as in the other Western Provinces, is in this great annual crop of new money has not been coming in.

If Canada's banks, by any miracle of lending, could have made it come in you can be sure we would have done so; for it is by lending that we live. That is our business. The banks are a part of your community. While you suffer we cannot prosper.

I have shown you how few branch banks in Alberta make any profit and how many are losing and, on top

of these losses, as I have shown you, we have an increased tax burden to carry.

Alberta audiences are intelligent—they are alive to questions of economics. Remember our responsibility to safeguard the funds of depositors. When we are losing money, if costs are increased by steep advance in taxes, what then? The alternative is either to pass on to our customers these added costs or steadily close out losing branches to a point where ends can be made to meet. Either way is a hardship to our customers and an inconvenience to their communities.

Now we turn to the matter of earnings. It is a popular misapprehension that because we pay one and one-half per cent on savings deposits and because, on the other hand, the highest interest rate we can charge by law is seven per cent, the difference between the one and one-half per cent and the seven per cent is all "velvet" — all profit. Let me point out to you why it is not so.

We have costs:

I am sure that all of my hearers are aware that no business can be carried on without costs. We pay wages. In the Province of Alberta alone during the past year we paid \$2,015,000 in wages to employees. We pay rent on premises. We spend money for stationery, printing and postage. We buy water, fuel and light. We pay the enormous taxes that I have spoken to you about. We contribute heavily to pension funds and to group insurance for employees. Depreciation on bank buildings takes a large sum each year. We have also to set aside a substantial amount each year as a reserve for bad debts.

In addition to our costs there are distinct restrictions on bank earnings. Only a relatively small proportion of our loans earns the legal minimum of seven per cent. Let me tell you about these restricted earnings.

Banks must keep themselves in such a position that anybody going to the bank to withdraw his savings can get his money. We are required by statute to deposit with the Bank of Canada, earning nothing at all, a certain percentage of our depositors' funds. In addition it is necessary to keep in short-term investments a further amount upon which the yield is low. Why is this yield low? Because the bonds in which these funds are placed will mature at short date. Cash reserves of other companies as well as those of Chartered Banks are looking for this sort of investment—the type which can, of course, most readily be turned back into cash. The demand for this type of investment is great and the supply none too plentiful; therefore, the price is high—which is another way of saying that the earning—the yield—is low.

The costs of doing business, coupled with restrictions on earnings, eat up most of the difference between the one and one-half per cent we pay and the seven per cent which it is wrongly supposed we earn on all our loans.

Let us take a little instance of the earnings on a loan. Let us say a farmer borrows \$100 in April, expecting to repay in the fall — say a six months' transaction. If the interest is seven per cent the gross amount of rent on this money paid to

the bank is \$3.50 — in other words the farmer has used \$100 for six months at a rental of \$3.50; but what does the bank receive net? Not \$3.50, but a matter of cents only. We have taken a six months' transaction for illustration. The rate of profit is no greater if the loan runs longer. Why? Because the costs we mention are running on all the time, too.

Last year's net earnings of the Chartered Banks on all of their business everywhere amounted to only one-half of one per cent on total assets and in previous years approximately the same. What commercial business or enterprise gets along on so narrow a margin?

You often hear it said that we pay big dividends and our own published annual statements are often used against us as seeming proof. Do you know that for every dollar of dividends paid the banks pay ninety cents in taxes?

The fact is that while by law \$100 is the par value of bank stock the average price at which the banks have sold their shares is \$163, of which \$100 has gone to Capital Account and \$63 to Reserve. In addition, during the scores of years the Chartered Banks have been in business, earnings of \$29 per share — instead of being paid out in dividends to shareholders—have been transferred to Reserve to add to the protection of bank depositors.

The total of a shareholder's investment is, therefore, on the average \$192 per share. So an \$8 dividend per share is a payment of only just over four per cent on the money invested.

Now we have dealt with taxes, earnings, costs and dividends. We have shown that banks operate upon a much smaller margin of profit than other lines of business.

We want to bring it home that the branch bank is a part of the community — that is true in the strongest sense. Besides giving a valuable service, banks maintain offices and staffs in scores of Alberta communities. They give opportunity of employment and a start in life to young people who take an active part in community affairs.

As a customer of public utilities, your local bank buys water, light, gas, power and fuel. It pays local taxes which go to the support of schools and hospitals and municipal institutions. It is on the job the year around, sharing your problems and taking its place as a good citizen.

And let me say that apart from their share of Dominion Government taxes — apart from any reserve for bad accounts, the Alberta Branches of Canada's Chartered Banks spent last year in taxes — Provincial and Municipal — in such things as wages, goods and other services, the huge sum of \$3,000,139 to carry on business in Alberta. That was purchasing power for Alberta — and that money was not created out of nothing.

I hope I have made it clear that we have carried on these services throughout the long, lean years, at a loss so far as our operations in the Province of Alberta are concerned. Canada's Chartered Banks have faith in the future of Alberta and confidence in the fair judgment of its people when all of the facts are before them.

NEW SANITARY POSTAGE STAMPS

In accord with the present trend of safeguarding the public health by eliminating as far as possible unsanitary elements in their mode of living, the old unsanitary postage stamp may soon make way for a new sanitary stamp recently invented by J. L. Small, of Viking, Alberta, and on which Canadian and United States patents have been granted and foreign patents are pending.

The new Sanitary Postage Stamp have been devised for the purpose of making the handling, use and storage of stamps more sanitary.

The old style stamp is so unsanitary mainly because the gummed side of the stamps is at all times open to direct contact with various dirt or disease bearing objects, the more or less sticky gum being a perfect pick-up medium for such dirt.

A postal clerk will handle a sheet of stamps from thirty to fifty times before all the stamps in that sheet are sold. At the same time the clerk's fingers are continually touching possible disease bearing objects, such as soiled paper money, coins, and perhaps contaminated handkerchiefs.

When stamps are bought they are invariably sold, gummed side down, across a plain wooden or leather covered counter. These counters are also continuously being soiled by contact with paper money, dirt falling from coins, many fingers, dust from the floor or street, and saliva, perhaps infected, forced from people's mouths as they speak or cough. The postal clerk's fingers being moist when he handles the stamps, the gummed side of the stamps is made slightly sticky, thereby readily picking up some of the infected dirt or drops of saliva from the counter. As it is customary for most people to lick the stamps,

such disease germs are passed directly into the mouth, the most vulnerable part of the human body.

The new sanitary stamps eliminate practically all the objectionable unsanitary features of the old stamp in a very simple but effective manner, viz. by providing the gummed side of the stamps with complete protection from contact with outside objects until each stamp is actually used. This is accomplished by a slight rearrangement of the stamps on the stamp sheet, a thin sanitary protective sheet secured in a novel manner to the back or gummed side of the sheet of stamps, while a slight change in the method of perforation allows the double sheet to be divided up into single stamps or any sized block of stamps, each such single stamp or block of stamps will carry its own corresponding part of the thin sanitary protective sheet securely attached, but easily removed when a stamp

is to be used. Extra stamps in possession of the public will continue to carry this sanitary protection until each stamp is actually used. Even the act of using the stamp is made more sanitary as the thin protective sheet may be folded back and held between the fingers while the stamp is being moistened.

The new sanitary stamp sheet is just as convenient from the viewpoint of the postal clerks and the large volume of stamps as the old. Stamps of all denominations may receive similar treatment while the extra cost of manufacture would be negligible.

A number of doctors and postal officials have commented very favorably on the new stamp and it is at present under consideration by the postal authorities at Ottawa.

E. L. Gray, Liberal Leader, Candidate in Edmonton By-Election

Picked unanimously by 314 delegates, E. L. Gray, of Brooks, Alberta, Liberal leader in the province, was selected as the Liberal candidate in the provincial by-election in Edmonton October 7th, when a nominating convention was held in Edmonton on Monday evening. An effort to nominate J. S. Oywer failed when he declined to stand.

Expressing his thanks for the nomination Mr. Gray sounded the keynote of "friendly negotiation" with other parties opposed to the present administration but without losing identity.

His nomination has met with warm approval all over this province and the result of the election on October 7th will be keenly watched. Mr. Gray is being hailed as the leader of the next government in Alberta.

Reduced Rail Fares for Thanksgiving Week-end

Winnipeg, Sept. 20. — Special low rail fares will be in effect between all stations in Canada for the Thanksgiving Day long week-end, according to an announcement by R. Creelman, passenger traffic manager, C.N.R.

Tickets at the low fare of single fare and one-quarter for the round trip will be on sale from Friday noon, October 8, until 2 p.m. Monday, October 11. Where there is no train service on Friday afternoon, tickets will be sold for the Friday morning train. All tickets will be good to return leaving destination up to mid-night of Tuesday, October 12.

These low fare tickets will be honored in all classes of accommodation and, and Thanksgiving week-end will be the last long week-end holiday before Christmas vacation, the railway is looking forward to a large volume of traffic between local points.

Pipeless Organ at CN Ex. Bandshell

At this year's Canadian National Exhibition one of the outstanding attractions was the daily public concert from the new Bandshell in the centre of the grounds where the Northern-Hammond Organ, an entirely new kind of organ using electrical impulses with no pipes or reeds, was featured; thus proving the organ now has other fields than churches and auditoriums or the home. This new instrument which is not affected by heat, cold or dampness, is the latest product of the Northern Electric Company's plant in Montreal.

AIR CHIEF MEETS TRANS-ATLANTIC PILOT

Philip G. Johnson, Vice-President in Charge of Operations, Trans-Canada Air Lines, and Captain A. S. Wilcockson, pilot of the Caledonia the big Imperial Airways flying boat which made the first trans-Atlantic survey flight met recently at the Boucherville air base, Montreal, when the Caledonia was making its second visit to Canada. Former President of United Air Lines and one of the leaders in the development of aviation on the North American continent, Mr. Johnson was keenly interested in the mechanical details of the big flying boat. He went through the Caledonia under the guidance of its Captain.

PROMPT SERVICE

H. WOOD, Local Agent, Viking.

LOCALS

Mr. and Mrs. S. G. Simmons spent a few days in Edmonton last week.

Miss Clara Enger has accepted a position in the Wainwright hospital.

Mr. S. G. Simmons is leaving for Edberg, Alta., this week, where he has a contract to build a house.

We understand a number of Irma people have had their children sprayed as a preventative of infantile paralysis.

Mr. John Enger has secured a position in the B. & B. department of the C.N.R. and has moved his family to Wainwright for the winter.

There will be a tea and sale of home cooking and supper served by the Anglican W.A. in the Foxwell Block on Saturday, Oct. 2, 1937.

Mr. A. C. Charter, local dairyman, recently had his herd of cattle tested for T. B. by a government veterinary. Every animal in the herd passed the test.

Mrs. C. Rush, of Seattle, has returned home after spending a week with her daughter, Mrs. Ben Sather. She was accompanied by her son, York.

Mr. and Mrs. W. B. Peterson of Los Angeles, Cal., arrived in Irma last Tuesday evening for a visit with relatives and friends after an absence of 14 years.

The October meeting of the Irma Social Credit Group has been postponed, but on Monday, Nov. 1st, the annual meeting of the group will be held which all members are asked to attend.

Mrs. C. E. Fenton took ill quite suddenly on Thursday, Sept. 16th, and was taken to the Wainwright hospital where she underwent an operation for appendicitis on Sept. 20.

So far Mrs. Fenton is doing very well. A general meeting of the Irma Branch, Canadian Legion and the Ladies' Auxiliary will be held on Saturday evening, October 2nd, at 8 o'clock, to make plans for Armistice Day. All members are requested to attend.

While a party of motorists were returning to Irma last Sunday evening obstructions, consisting of railway ties, roots and other rubbish, were found piled on the highway in three different places west of Viking. In each instance they narrowly escaped wrecking their car and possibly causing the death of some of the occupants. A short distance west of the first obstruction two men were noticed sitting beside the road. People travelling after night would do well to watch very carefully, especially at this time of the year when there are so many robberies and hold-ups.

Entries were made in many different classes, and special prizes by outside firms were fewer than last year, so that the amount of the separate prizes will be considerably less than last year. It is hoped that in future locations and grants to this very praiseworthy event will be larger and that there will be a larger sum available as cash awards for the young competitors.

Marjorie Hanson of Lake Alice was the winner of the special course at the Vermilion school of agriculture in the girls' section, and Charles Powell of Alice Hill won the course for the boys. Other competitors who ranked very high were Bodil Gottlieb of Lake Thomas and Kenneth Swift of Clover Lodge.

The three highest schools in order of points won were Lake Alice, Clover Lodge, and Miss Hall's room of the Viking school. Both school diplomas were won by Clover Lodge.

At a meeting held here Saturday evening of representatives of the U. F. A., Conservatives, and Liberals, a resolution endorsing the nomination of E. L. Gray at the convention held September 20th, in Edmonton, was passed unanimously. Mr. Gray, former deputy minister of municipal affairs in the U.F.A. government, is fast gaining support of all political parties who are opposed to the present provincial government.

Eleven teachers from Viking and district attended a meeting of the Viking-Wainwright District Association held at Irma last Saturday.

Several speakers from Edmonton were present to discuss problems of interest to teachers.

A delicious supper was served by the ladies of the Women's Institute. These meetings stimulate the interest of teachers in their work besides affording an opportunity for us to meet other teachers and discuss problems of school work.

Mr. and Mrs. Steve Jones and Mrs. Wm. Modersell of Edmonton, were down from the city last week. Mrs. Modersell was a guest at the Adolf Street home, while Steve and wife enjoyed a visit at the Evan Jones' home.

C. A. Dupre, Dodge salesman, was down the first of the week from Edmonton and closed a couple of deals for new cars.

Miss Helen Fitzmaurice left this week for Minneapolis, Minn., where she will enroll at the University of Minnesota.

—Claude Ramsey, Irma.
("The Cooks" E. & E.) R. I. P.

Viking Items.

On Friday, September 17th, the annual school fair at Viking took place in the school grounds. The large crowds and the number of entries was reminiscent of the old days when the school fairs were supported by government grants, and the quality of the work was such that all classes received very favorable comment from the judges.

There were over thirteen hundred entries in the various classes, double the number that were entered last year. This is considered exceptional in view of the small number of schools competing this year. There were nine country schools and three rooms of the town school entered. This is an increase of three over the schools entered last year. The fine showing of the country schools in all classes of work should encourage yet others to enter next year's fair.

During the day, while the judging was in progress, races, jumps and other sports events were taking place on the school grounds and the adjoining race-track. Outstanding record was that of Kitty Taylor, who made 15 feet in the broad jump for girls 13 and under. A committee of which Mr. Newman was head had this in charge. A softball game between Mooreville and Clover Lodge provided considerable interest. Clover Lodge finally won by a score of 12 to 5.

There was a very fine exhibit of livestock with entries in practically every class. Mr. Parkinson, the judge, gave interesting pointers to the exhibitors, while the judging was in progress.

One very fine feature was the large number of adult spectators interested enough to attend the fair. It was unfortunate that all exhibitors did not leave their exhibits long enough after the judging was completed to allow these people to see and appreciate the work. Perhaps the fair committee in future will see that exhibits are left on display for a definite time.

If future fairs are as well attended and have as many entries it would be wise to hold the fair in some other building other than the school, where the spectators will be able to view the exhibits with more comfort, and with a better chance to inspect what they are particularly interested in. Although the tables in the school were neatly arranged, the small aisles made it difficult for the crowds to move about. Such a building as the Elks' hall would be much more suitable.

Entries were made in many different classes, and special prizes by outside firms were fewer than last year, so that the amount of the separate prizes will be considerably less than last year. It is hoped that in future locations and grants to this very praiseworthy event will be larger and that there will be a larger sum available as cash awards for the young competitors.
